Sub: **Use of form no. RPLI-2 for collection of PLI/RPLI premium in Branch Post Offices.**

This is regarding use of RPLI-2 form for collection of PLI/RPLI premium in Branch Post Offices. As RICT devices are now being used at Branch Offices, collection of premia through device as well as through manual receipt results in duplicity of work.

2. Therefore, manual receipt of RPLI is not required in Branch Post Offices, wherein premium are being collected in RICT device and receipt is being generated for the same through device.
3. However, offices where RICT device is not functional due to any reasons (network, device or technical issue), the prescribed receipt may be used.

This issues with the approval of CGM (PLI).
